Spring 2019

Ready to hand over the key; Poulsen home completed

After 10 months and thousands of hours of work by hundreds of volunteers we have finished the home for Janelle Poulsen in Potlatch. Every person who worked on the build should be proud of the finished product. If they were only there for a few hours or every workday, everyone's contribution made a difference. I have to say that I am extremely proud of the work that you all did. We've built another beautiful and affordable home, and we did it zero build site accidents and on budget.

I want to acknowledge the work and dedication of the Codger Crew. These men and women are there every work day. They are all fine craftsmen and they all are willing to work with and teach our community volunteers. There is no way we could do what we do without you guys, so from the bottom of my heart THANK YOU ALL!!!

The dedication for the Poulsen home is Sunday, March 10th at 2:00. Unfortunately I will not be able to make it this year so I will take this opportunity to let everyone know what a wonderful person Janelle is. She has been a pleasure to work with and I can honestly say that she is an inspiration. Not many people could do what she does, go to school full time, work part-time, raise three kids as a single mom and still be on the jobsite every Saturday with a smile on her face, a hug and a thank you for us all.

To those of you reading this who have never been able to make it out to the build site, I would encourage you to find a few hours and come on out. I guarantee that you will have fun, maybe learn a few things and most important you will be making a difference. If you don't have any building experience please don't let that stop you from volunteering. Everyone is welcome. Our next build will be in Palouse and weather permitting we hope to break ground the beginning of April. I hope that I will see you all there.

Dave Stradley, Palouse HFH Construction Supervisor

Poulsen Home Dedication

Please join us to celebrate the completion of the Poulsen home build, and Janelle's start as a homeowner.

Sunday, March 10
2:00-3:00
610 N. Ponderosa Dr.

Mission to Puerto Rico—January 2019

Two families in Puerto Rico now know what it is like to have a roof over their heads thanks to 14 volunteers and five days of blood sweat and tears. We made a very small dent in a very huge problem. During Hurricane Maria, just over a year and a half ago, many homes were completely destroyed and over 60,000 homes lost their roofs. Our group, sponsored by Moscow First Methodist Church, worked on two homes. We completed two roofs, including trusses on one, painted both homes, installed siding, helped with electrical and did a whole bunch of plaster repairs. One of the most rewarding parts of the trip was the hugs of appreciation from the families. I am so impressed with the resilience of the Puerto Rican people. There is still thousands of blue tarps, many of the people I talked with were without power for months and many had no running water for weeks, yet I never heard anyone complain. Just the opposite, they were all very gracious, appreciative and welcoming. I can't say enough about the group of volunteers who spent their own time and money to make a difference in other people's lives. We started as strangers and ended as family. We shared a lot together as a group, work, meals, stories and tears, but the one thing we will always remember is knowing that we were able to help someone less fortunate than us.

By David Stradley, Palouse HFH Construction Supervisor, Puerto Rico Mission Trip Volunteer
